Education

Kalinga Institute of Industrial Technology

Bachelor of Technology in Computer Science (CGPA: 8.86 / 10.00)

Expected July 2026

Bhubaneswar, Odisha

DAV Public School, NIT Campus

Computer Science (Percentage: 91.20 / 100.00)

2021

Jamshedpur, Jharkhand

Experience

Tata Steel

Web Development

May 2024 - June 2024

Jamshedpur, Jharkhand

- Developed an interactive web-based tool using HTML, CSS, and JavaScript to visualize blast furnace data.
- Implemented Chart.js for dynamic scatter and line plots, aiding in operational data analysis.
- Utilized date-fns for precise date/time parsing and formatting in data visualizations.
- Collaborated with mentor to optimize user interface and enhance data interpretation.

Project

AI-Powered Skill Development Platform for Youth (Technologies: JavaScript, React, MongoDB, REST API, Express.js, Node.js, CORS)

- Developed and implemented secure authentication and authorization using JWT/OAuth, ensuring data protection and privacy.
- Built and optimized backend APIs for user management, real-time chat, and learning recommendations, improving system efficiency and also implemented video calling functionality.
- Designed a comprehensive admin portal with advanced features, including creating and managing quizzes, job postings, and course details, hosting live sessions for real-time interaction with users, project collaborations.

Mental Health Platform (Technologies: JavaScript, React, MongoDB, REST API, Express.js, Node.js, CORS)

- Developed a full-stack mental health platform using MERN, integrating user and admin authentication with secure login/signup functionality.
- Implemented an AI-powered emotional assessment feature using Gemini API, generating progress reports based on user responses.
- Built a community section for user interactions and a resource hub for admin-curated articles, videos, and podcasts.

Technical Skills

Languages: Java, C, Python, Javascript

Technologies: HTML5, CSS3, Express.js, React.js, Node.js, REST api, EJS, MongoDB, SQL, Git / GitHub, Cursor, Windsurf.

Concepts: Data Structures & Algorithms(DSA), Operating Systems, Object-Oriented Programming (OOPS), APIs, DBMS

Achievements

- Solved 300+ algorithm and data structure problems on LeetCode.
- Finalist (Top 24), TEMENOS TEM-E-THON 2025 – Selected for the final prototype round held at Anna University, Chennai, on February 8, 2025, representing Team FutureMind.

Certifications

- Hackerrank Software Engineer Intern (July 2024)
- Online AICTE Python Full Stack Developer Internship provided by EduSkills Academy (Oct 2024- Dec 2024)
